Module Breakdown

MODULE 1

Deploy and Update Operating Systems

- 1.1 Instructor and Course Introduction
- 1.2 Exam Information
- 1.3 Deploy and Update Operating Systems Introduction
- 1.4 Plan and Implement Windows 10 by Using Dynamic Deployment
- 1.5 Plan and Implement Windows 10 by Using Windows Autopilot
- 1.6 Upgrade Devices to Windows 10
- 1.7 Manage Updates
- 1.8 Manage Device Authentication
- 1.9 Install VMware Workstation 15 in Windows 10 Demo
- 1.10 Performing a Clean Install of Windows 10 Demo
- 1.11 Upgrading Windows 8.1 to Windows 10 Demo
- 1.12 Configuring Locales Demo
- 1.13 Troubleshooting Failed Installation with Setup Logs Demo
- 1.14 Installing Windows 16 Server Demo

MODULE 1

Deploy and Update Operating Systems (continued)

- 1.15 Installing Microsoft Deployment Toolkits (MDT) Part 1 Demo
- 1.16 Installing Microsoft Deployment Toolkits (MDT) Part 2 Demo
- 1.17 Setting Up an On-Site Domain Controller Demo
- 1.18 Joining Windows 10 Client Machine to an On-Site Domain Controller Demo
- 1.19 Getting Started with Free Azure Subscription Demo
- 1.20 Getting Familiarized with Azure Portal Options Demo
- 1.21 Create a Virtual Machine Demo
